About GridNest Web Solutions

Who We Are

GridNest Web Solutions is a modern web development company focused on helping businesses build a powerful online presence. We believe that in today's business environment, every company deserves a professional, secure, and beautiful digital identity. We build websites that look great, run fast, and help you get more customers.

Why Businesses Choose GridNest

- **Custom Website Design:** Bespoke user interface designed entirely around your business goals, target audience, and unique brand voice.
- **Mobile Responsive:** Your website will layout and function flawlessly across desktops, tablets, and mobile smartphones naturally.
- **SEO Optimized Layouts:** Built from the ground up following clean modern search standards to give you a strong structural start on Google.
- **Fast & Secure Infrastructure:** Optimized light code execution models coupled with clean security best practices to protect your data.
- **Reliable Ongoing Support:** Friendly, direct technical support channels to update, scale, and maintain your site without any hassle.
- **Affordable But Premium:** Elite design standards balanced cleanly within competitive, fixed business pricing packages.

Industry Vertical Specializations

We design high-impact website platforms explicitly optimized for the following professional environments:

- • Business Websites & High-Growth Brand Landing Systems
- • Hotel & Luxury Resort Frameworks (Third-party Booking Platform Connections)
- • Restaurant Websites (Digital Menus & Delivery Route Integrations)
- • Real Estate Brokerage Platforms (Bespoke Property Filtration Views)
- • Corporate Enterprise Web Portals & Custom Digital Web Solutions

- Business Email solutions are available as an optional account add-on customized choice.

Project Investment

The financial schedule below defines line-item investment parameters based upon selected scope frameworks:

Description of Services	Scope Limits	Investment Capital
Website Core Application Development	Custom Bespoke Premium Website Tier Framework	[₹19,999]
Corporate Domain Registration	Provisioned at actual name supplier cost scales	[Actual Cost]
Managed Web Hosting Server Space	Dedicated high-performance optimized cloud platform	[Actual Cost]
Professional Corporate Business Email	Optional customized corporate communication inbox modules	[Optional Add-on]
Additional Custom Feature Add-ons	Bespoke extensions requested beyond standard packaging	[Billed Separately]
Applicable Goods & Services Tax (GST)	Calculated and applied directly during live invoicing	[Billed on Invoice]
Grand Total Project Allocation Cost	Fixed scope core solution delivery parameters	[Final Invoice Sum]

Note: Domain and Hosting infrastructure access channels are setup in the client's corporate name to guarantee total long-term security, control, and strategic ownership.

Project Conditions & Terms

Commercial Payment Terms

The payment schedule shall be executed as follows:

- 50% Advance Payment: Due upon formal project agreement confirmation to initiate development sprints.
 - 50% Final Delivery Payment: Due immediately prior to final server deployment and live cutover controls.
- OR
- 100% Advance Payment Plan: Eligible for a special structural package funding discount.

Document Validity

This proposal and all referenced financial investment metrics remain strictly valid for 15 days from the date of issue.

Post-Launch Maintenance Support Framework

Technical support windows are handled efficiently via the following channels:

- WhatsApp Chat Support | • Direct Email Support Tracking | • Google Meet Strategic Sessions
- Free Technical Maintenance Coverage mapping perfectly to the specific timeline rules of your selected plan.

Terms & Conditions Agreement

- ✓ Domain Registration & Cloud Hosting server space fees are always billed separate from core code fees.
- ✓ The client corporate team will provide all primary business logos, structural copy text, and digital image assets.
- ✓ The estimated project timeline begins tracking immediately after the advance payment clears our bank.
- ✓ Major structural workflow or design changes requested after milestone code approvals may incur additional modification fees.
- ✓ Final codebase, site file transfers, and administrative portal log-ins occur strictly after complete payment clear.
- ✓ This business document is officially valid for 15 days following the stated date of generation.
